EDUCATION

International Institute of Information Technology, Pune

Bachelor of Engineering (IT) - 8.14 CGPA

2026

Disha Public School & Jr College, Wai

Higher Secondary Education (12th) - 80.5%

2022

SKILLS

Languages: Java, Python, SQL, JavaScript, TypeScript

Web Technologies: HTML, CSS, React.js, Node.js, Express.js, Tailwind CSS, REST APIs, JWT

Databases: MySQL, MongoDB

Tools: Git, GitHub, VS Code, Cursor, Codex, Claude

Relevant Coursework: OOP, DSA, DBMS

PROJECTS

Builder AI | [GitHub](#) | [Live](#)

Technologies: React, Vite, Tailwind CSS, Express, MongoDB, JWT, OpenRouter, Sandpack

- Built an AI website builder that turns natural-language prompts into React projects, with live preview, chat-based revisions, one-click publishing, and export.
- Made AI generation reliable using structured output validation, automated code repair, dependency detection, and retry handling.
- Secured the app with JWT authentication, bcrypt hashing, and protected REST APIs; stored projects in MongoDB with autosave and public sharing.

Quick.ai | [GitHub](#) | [Live](#)

Technologies: React, Vite, Tailwind CSS, Express, Clerk, Neon PostgreSQL, Gemini API, Clipdrop, Cloudinary

- Built an AI SaaS platform for article writing, blog-title generation, image creation, image editing, and resume review in a single dashboard.
- Implemented Clerk authentication with premium access control, plus creation history and community likes backed by Neon PostgreSQL.
- Integrated Gemini, Clipdrop, and Cloudinary, using Multer and PDF parsing for image processing, file uploads, and resume analysis.

Forever Store | [GitHub](#) | [Live](#)

Technologies: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Stripe, Razorpay, Cloudinary

- Built a full-stack e-commerce platform with a customer storefront and an admin dashboard for product management and order tracking.
- Implemented checkout with Stripe, Razorpay, and Cash on Delivery, plus cart, search and filtering, and size-based ordering.
- Secured access with JWT, refresh sessions, email verification, and password reset; added Cloudinary uploads, order emails, and inventory reservation to keep orders consistent.
